IV) STORMWATER AGREEMENT:

The Owner, its successors and assigns, will perform the work necessary to keep these facilities in good working order as appropriate. In the event a maintenance schedule for the stormwater management/SCM facilities (including sediment removal) is outlined on the approved plans, which are incorporated herein by reference, the schedule will be followed. All safety measures shall be maintained and repaired in a manner to protect the public health and safety.

V) OPERATION & MAINTENANCE AGREEMENT:

Prior to the conveyance or transfer of any lot or building site to be served by a structural SCM, and prior to issuance of any permit for development or redevelopment requiring a structural SCM, the applicant or owner of the site must execute an Operation and Maintenance (O&M) Agreement that shall be binding on all subsequent owners of the site,

portions of the site, and lots or parcels served by the structural SCM. The O&M Agreement shall require the owner or owners to maintain, repair and, if necessary, reconstruct the structural SCM, and shall state the terms, conditions, access conditions, and schedule of maintenance for the structural SCM. The O&M Agreement must be approved by the Stormwater Administrator prior to plan approval and shall be recorded with the county register of deeds.

VI) LIABILITY DISCLAIMER

This Agreement imposes no liability of any kind whatsoever on the City, and the Owner agrees to hold the City harmless from any liability in the event the stormwater management/SCM facilities fail to operate properly or safety measures are improperly designed, constructed, or maintained.

VII) SUBMITTAL:

The Owner will submit the Stormwater Management Permit Application with original signature notarized.

City of Monroe Engineering Stormwater Management Permit Application

Project Name/Development: _____

City of Monroe
Engineering Department
Stormwater Management Permit Approval

This permit conveys approval from the permitting entity for the owner or his agent as shown on the approved plan to construct stormwater management devices and implement site designs (including undisturbed open space) in accordance with the applicable Post-Construction Stormwater Management Ordinance and related policies. This permit is valid until the project is complete or one (1) years from issuance of permit, whichever comes first. Maintenance of all stormwater management devices installed pursuant to this permit is required into perpetuity. In addition, deed restrictions and protective covenants are required to ensure that subsequent development activities maintain the development (or redevelopment) consistent with approved plans. The information listed on this form must be enclosed and fee payment in order for a permit application to be considered complete.
